Appointment of village employees with slight cost of living raises to some was effect Tuesday evening by President James McMillen with board approval.

New trustees Ed Vos and George Garland were placed by the mayor on committees where their predecessors Carl A. Wolfenbarger and James Maples served, but with one exception. Edgar Simonsen was placed on the streets and lighting committee and his place on the finance and auditing committee was taken by Garland.

The committees now stand: License and Licensing, Arthur Rosenfeldt, Murrill Cunningham, and Simonsen.

Streets and lighting, Cunningham, Simonsen, and Garland.

Sewer and water, Arthur M. Hawkins, Garland, Vos.

Finance and auditing, Rosenfeldt, Garland, Cunningham.

Printing and publishing, Garland, Hawkins, Vos.

Public buildings, Rosenfeldt, Simonsen, Hawkins.

Salaries, Hawkins, Rosenfeldt, Vos.

Dr. R. D. Williams was re-appointed health officer; E. C. Jacobs, attorney, Edgar Simonsen, fire chief; Arthur Rosenfeldt, plumbing inspector; Walter I. Scott, marshal, building commissioner; and superintendent of water tapping and sewers; William Thiemann, superintendent of streets; S. E. Burnette, patrolman; and Anthony Scully, park director.

The wages of the marshal and street superintendent were upped from \$280 to \$300 a month, and the patrolman from \$235 to \$250.

Mayor McMillen said that it will be necessary to hire an extra patrolman this summer.

He said that he wanted the village to buy some files in which village records can be collected and kept at one place.

"As it is, everybody's got an armload of stuff, and no one else knows where it is," McMillen said.

Shultis Deputy Clerk Serving Village Board Until Powles Returns

An ordinance passed by the village board Tuesday evening providing for a deputy village clerk made possible the appointment of Clarence B. Shultis to take the place of Clerk L. D. Powles who was called to the army.

Shultis began his duties Tuesday evening.

Powles, who was in the air force reserve, reported for duty Tuesday at an air base near Oklahoma City, Okla.

Shultis is fitted for the job through his long experience as secretary of the fire department. His appointment until Powles returns makes unnecessary a special election.

Cancer Drive Meets Quota; Tag Day Set For Saturday, May 5

Antioch's cancer drive has gone over the top again this year, the quota of \$350 having been met this week. County officials have extended the drive until May 5 in order that some communities may have sufficient time to meet their quotas. Antioch's committee, headed by Mrs. Elvin Keulman will stage a tag day on this Saturday to swell the total here.

Naber and Osmond Plot Gets Village Approval

The village approved the Barney Naber and Helen Osmond subdivision on David st., south of Orchard st. and the plot will be filled so that lot owners can get their deeds. Naber posted a check for \$875 as guarantee that the gravel road will be built according to village requirements.

A permit was given Barbara and Ernest Wheatland to build a house having three bedrooms, living room and kitchen in that subdivision. In an exchange of labor with other G.I.'s Wheatland will build the house exclusive of plumbing for \$4,000.

Ninety-six Boys Sign For Little B. B. League; Organize Next Thursday

Ninety-six boys have already signed up to play baseball in the Little Baseball League, Carl A. Wolfenbarger, recreation director announced yesterday.

Wolfenbarger called a meeting of boys, their parents and the coaches for 7 p. m. next Thursday at the Scout house, when plans will be completed for organization.

Each team will have 14 boys, three of whom must be 10 years old or younger, and five over that age in the 8-12 year bracket of the league. Twelve members of the squad will be in uniform.

There will be a six-team league and perhaps more. Wolfenbarger said.

The Ford Motor Co. will sponsor one team and John Dupre another. Merchants co-sponsoring teams are Nelson Real Estate, R. and J. Chevrolet, Carey Electric Co., Five and Ten store, Gibbs Variety store, Baethke barber shop and Antioch Service center, with others to be added later.

The coaches are Ray, Warren, and Dick Wells, Roy and Robert Scott, Jack Fields, John Dupre, Herbert Ellis, Charles Maples, and William Setek.

The Sponsors will purchase caps, uniforms, hose, and canvas shoes with rubber cleats. The boys will furnish their own gloves, and Wolfenbarger is hoping the village will buy the catcher's regulations, baseballs and bats.

Work Started by Tonyan On \$652,000 Addition To Antioch High School

Village Bd. Waives Permit Fee As Savings to School Only

The Tonyan Construction Co., McHenry, Ill., began work Monday on the new \$652,000 addition to the Antioch Township High School.

First action was to raze the southeast portion of the present building which housed the vocational-agriculture laboratory so that the wing that projects 70-feet east from the main building will come even with the south line.

The new section will then extend 100 feet north, covering most of what now is the parking lot, and will house the shops.

This and the north wing which will include the administration suite and five class rooms are the number one project, Principal R. E. Edmundson said, and he expects the shop building to be done so that it can house the various shops next fall. The shops will include electric, woodworking, mechanical drawing, general metal, and planing room for industrial arts, agricultural shop, class room and laboratory, and storage and finishing room.

The number two project will be the gymnasium, dressing rooms and band room, and the third project will be the remodeling of the present building next summer when there is no school.

An attempt to put up walls of the gymnasium will be made this year, but further work may be delayed until next year because of the slow delivery of steel.

Principal Richard E. Edmundson said that consideration is being given to parking space north of the present building.

The village board Tuesday evening gave the contractor a building permit without fee if the building cost estimated at \$632,000 is unaffected. The board members were told that the contractor gets a percentage on each legitimate saving he effects, and the waiving of the building permit fee is not to be regarded as a saving.

New Stage Equipment Used At the Spring Festival of Grade School Last Friday

The Antioch Grade School Parent Teacher association staged its annual spring festival Friday evening with an attendance of nearly 700 people. It was the first time the festival has been held in the grade school gymnasium and on this occasion there was plenty of room, Principal Richard Whitacre said.

The new equipment including the curtains, and the lights arrived and was installed Friday morning. The pupils had but one practice on the stage with the new equipment, but with the exception of slight delays between appearances were able to perform quite well.

The children while awaiting turns to perform were entertained by motion pictures in four different rooms. Projectors were supplied by Cecil Smith and Bernie Thompson which were added to those of the school to project the pictures.

The curtains and scenery were installed by the Scenic Studies of Knoxville, Tenn., and the multi-colored lights by Fred Rickert of Graylake.

Heretofore the festival was held at the high school and many persons had to stand because of lack of room. Three hundred and seventy-eight children took part by classes in musical presentations which ranged from semi-religious to the comedy and clowning.

Blue Island Man Buys the "Castle"

The "Castle," resort and restaurant located at the junction of route 173 and route 45, east of Antioch, has been purchased by Henry Meyer, Blue Island. The Meyers took charge of the business on last Monday and will conduct the same sort of business as has previously been operated there.

Classes made field trips. The fifth grade of the Antioch school, taught by Mrs. Cecil Smith went to the Chicago Historical society museum today on a field trip, while at the same time Mrs. Richard Whitacre's second grade pupils went in another school bus to the Brookfield zoo. The eighth graders will go to the museum of science and industry after they have their placement examinations.

Petition Asks Board To Deny Orchard Site For Rescue Squad Use

Trustees Table It Until June Meeting, Think Signers Are Confused

A petition asking that the village board deny the use of village property on Orchard street for use by the Antioch Rescue squad as a station for its first aid equipment was presented to the trustees Tuesday evening.

The petition carried 16 signatures, most of whom were residents of the immediate neighborhood. It was tabled until the next board meeting.

Complaint was made that the proposed building would eliminate a place used as a park and cause the removal of a war memorial. The squad trucks were pointed out as a hazard and the alarm as a disturbing factor.

President James McMillen said that there appeared to be some confusion as to where the new building would be situated.

"From this petition the impression is given that the Rescue squad would build east of the pump house on the park grounds. It will be on the west side and the park and memorial will not be disturbed," he said.

The mayor later said that eventually the park on Main street will be used for public events instead of the one on Orchard street because of the greater room and he favors the removal of the memorial there. The trustees said that in view of the fact the Antioch Rescue squad doesn't now have the money to start construction, the protest can be carried over a month for study and consideration.

The petitioners assured the trustees they were not opposed to the Rescue squad but thought there were better places for its building.

Emil Hallwas Will Head Moose Lodge For Coming Year

Emil Hallwas, local building contractor, was installed governor of the local Moose lodge at a meeting held last Wednesday. He succeeds Les Hybarger as governor, and has been acting governor since Hybarger left Antioch.

Other officers installed are Jos. Gorlitz, junior, governor; Frank Kennedy, Jr., prelate; Ray Horton, treasurer; Les Palmer, Sgt. at arms; Walter Good, asst. Sgt. at arms; Anthony Scully, trustee; Glenn Fox, outer guard; Wm. Meyer, inner guard.

A luncheon was served after the meeting by Florence Dexter, Mrs. Rendell, Frances Teson. Music and dancing was also enjoyed.

Robis to Stand Trial. Stanley Robis, Spring Grove, will go on trial in circuit court at Waukegan, June 11, charged with reckless homicide and assault with a deadly weapon in connection with the hit-run auto death of Mrs. Della Duckwitz on December 12. Robis is out on bond for appearance on that date.

A 15-year-old boy was given first aid treatment by the Antioch Rescue squad and Dr. D. N. Deering at Fox River park Sunday afternoon. The youngster, victim of a head injury earlier in life, became overheated in athletic activities and became unconscious.

Village Board to Buy 50 More Parking Meters to Enlarge Metered Area

If there is no legal restriction the village board will place an order immediately with the Duncan Parking Meter Co for 50 parking meter heads and stands.

The board was given a price of \$67.50 for each unit and it would save money by giving village employees the job of installing them. Trustee Murrill Cunningham said that immediate placement of an order would be necessary if the village is to get any soon because of the shortage in materials that go into the meters. The big demand, especially the thousands sought by Chicago this year further limits the meters available.

Forty-five of the meters would be placed on Broadway and Main sts., extending the area south, west, and east. The other five would be for replacements.

Cunningham proposed a 12-minute limit on the ones in front of the postoffice.

Many Students Will Be Recognized at A.T.H.S. Honors Day Tomorrow

Lorraine Bock, Valedictorian, and Ann Mattson to Be Salutatorian

Antioch Township High School will hold its annual Honors Day in the school auditorium at 9 a. m. tomorrow.

At that time the high school will publicly recognize those students whose scholarship has ranked them in the top percent of their class, as well as those whose club activities have been considered as meritorious.

The school feels that such a program stimulates an interest in scholarship and creates a spirit of friendly, though earnest, rivalry to obtain a position on the monthly honor roll. Not only is scholarship stressed, but also the responsibility to classes, and the responsibility of carrying out to the best of his ability, the activities of whatever club the student joins.

Honors Day is really a recognition of the student's good citizenship potential.

The program Friday will be as follows:

Presentation of the Student Council by Mr. R. C. Edmundson, principal and sponsor. Economic Highlights

In the first fireworks that followed the President's abrupt and unexpected dismissal of General MacArthur from his four commands in the Far East, some of the big underlying issues tended to be submerged. Political comment, with a few exceptions, followed party lines—the Republicans said it was a black day for this country and the Democrats said the President had no alternative. White House spokesmen said the General had clearly exceeded his authority, and intimated he had been deliberately insubordinate to his Constitutional superiors. A close associate of the General denied this flatly. MacArthur partisans said the President had played into the hands of the communists and enormously weakened the free world. MacArthur opponents said his removal greatly enhanced the chances for a workable peace.

Time will settle this part of the debate. In the meantime, entirely aside from MacArthur incident, foreign policy, in all of its many ramifications, is again squarely in the national spotlight.

Mr. Truman said that his Administration will not appease communism anywhere. But the fact remains that the British, who were most eager for MacArthur's dismissal, have shown what many people regard as an alarming desire to achieve a Far Eastern settlement on a Munich basis. They have proposed that Formosa be turned over to Red China. They bitterly opposed MacArthur's desire to enlist Nationalist China in the Korean war—and on this Mr. Truman and Secretary Acheson are squarely with them. In the view of defenders of the MacArthur type of thinking, the British policy, along with that part of the policy which is shared in top quarters in this country, cannot help but give communism victory after victory and endanger the whole East—Japan, the Philippines, and so on.

It must also be recorded that MacArthur's firing was received with great enthusiasm by the Communist Party in the United States—and that party, of course, has followed the Kremlin line like a tight rope walker.

The question of what shall be done about ending the Korean war remains unanswered. It certainly seems that the communists will not agree to a ceasefire except on terms dictated by them, terms which would amount to absolute appeasement by the UN powers. General MacArthur said that it was militarily impossible to win a decisive victory in Korea so long as Red China herself could not be attacked. His successor, General Ridgway, said practically the same thing some time ago.

Reports from the Korean combat zone indicate that the majority of the troops were shocked and dismayed by MacArthur's dismissal—not only because of the General as a personality and a soldier, but because they feel it means they must go on and on, fighting and taking their casualties, in a useless and hopeless war which may last indefinitely. The General, they feel, was their great spokesman, and now has been forced to leave them.

In any event, and regardless of one's personal sentiments on the MacArthur matter, it seems inevitable that a showdown is coming. The cork has blown out of the bottle. It does not seem possible that the indecisiveness which has characterized the handling of critical foreign affairs can last much longer. Congress, bolstered now by the high tide of public feeling, will demand that a straight course be steered in one direction or another.

Gross Roots Opinion

Clark, S. D., Courier: "Atomic explosions are serious only to a given area where the blast occurs. The stilling of the voice of a free press affects entire countries."

Morris, Minn., Tribune: "Round after round of wage and price raises are just a method we have of kidding ourselves into pushing the costs of inflation on to the other fellow. We never really escape our share of the cost and in the end we pay heavily. Every inflation in history has always ended in a depression, which brought business stagnation, precipitous decline in property values, and wide-spread unemployment. We do not seem to be wise enough to halt inflation by any other method."

Scotland Neck, N. C., Commonwealth: "Back in the olden days it was said that the great corporations adopted the attitude of 'the public be damned', but now it seems that the entrenched bureaucrats at Washington have adopted a similar attitude."

Fairfield, Iowa, Daily Ledger: "History shows that when the rulers, who should be the servants of the people, begin to curtail the rights of the sovereign people, that nation is approaching the precipice."

Fowl Pox

Fowl pox, which affects chickens and other poultry, is not transmissible to human beings. Some people have the idea that chicken pox in human beings is the same as fowl pox, but this is not correct. The only similarities between these diseases is that both are caused by viruses and both produce sore-like spots on the skin.

Navy Training Airplane Makes Forced Landing On Fire at Rosecrans

Two navy flyers from Glenview Air base escaped injury when their training plane caught fire and forced a landing in a field of the Olsen Bros., farm, managed by Lester Bereliter a half mile north of Rosecrans, at the intersections of Rtes. 41 and 173 at 4:35 p. m. Tuesday afternoon.

The plane piloted by Lieut. R. B. Talley, Waco, Texas, and his trainee J. F. Coughlen, Norwood, O., was about 2,400 feet in the air when the motor stopped.

Talley said he didn't know what the trouble was until they made the forced landing and then discovered smoke coming from the engine. He used an extinguisher, but it was inadequate and a call was put to the Newport fire dept., at Wadsworth.

The plane a single motor SNJ-5 known as a Texan, was badly damaged before the fire department made the five-mile trip and extinguished the blaze.

The two were on a reconnaissance flight and had been in the air about two hours when engine trouble developed. Talley brought the plane to a stop upright at a distance of 70 feet on a knoll.

Allendale Beats Lake Villa In Opening Game 17 to 3

The Allendale Tigers opened their 1951 softball season last Friday, by defeating the Lake Villa Red Devils, with Bill Snipperley, pitching a five hit game.

This ended the scoring for Lake Villa until the fourth inning, when the Red Devils put together three hits to score a run.

The threat of a rally was stopped by a double play by Allendale. Allendale scored in every inning except the third. John Kelly also hit for the circuit in the fourth inning with one man aboard. Moran was the losing pitcher, giving up nine bases on balls which proved to be the undoing of the Lake Villa squad.

Totals:

| | Runs | Hits | Er |

| Lake Villa | 3 | 5 | 2 |

I'll match my Dodge with any car on the road for Value and Dependability

—says MICHAEL OPPENHEIM

"Sure, I've owned and driven other make cars," says Michael Oppenheim, Bellerose, N.Y. "But since 1941 my cars have all been Dodges. I know how dependable Dodge cars are, how little they cost to run."

You could pay up to \$1,000 more and not get all the extra room, comfort and rugged dependability of Dodge

Compare what Dodge gives you ... with what other cars offer. You'll understand why Dodge owners say they'll match Dodge with any car on the road.

Take riding comfort for example. You could pay far more for a car and still not get the almost unbelievable smoothness of the new Oriflow ride. Even

on roughest roads there's no wheel "hop" or bounce.

You get the relaxing comfort of extra head room, leg room and shoulder room ... the safety of "Watchtower" visibility. Dodge Gyro-Matic—the lowest priced automatic transmission—lets you drive without shifting. See and drive Dodge today.

WHY INSURE?

BECAUSE you want to be able to replace your property without financial loss to yourself, when the unexpected happens—that's why.

Remember, it's better to always have insurance and never need it than to need it just once and not have it.

Lubricating Gasoline

D-X MOTOR OIL with EXTRINOL

D-X with Extrinol fights wear and saves repairs because Extrinol helps keep motors cleaner, protect bearings and fight sludge. Change to tougher, safer, more economical D-X Motor Oil today

The "flame zone" of your motor contains the vital power parts. Damage to these parts can result in costly repairs. D-X Gasoline provides additional protection to them because, in its manufacture, a specially refined lubricant is scientifically blended with high anti-knock gasoline. In addition, D-X gives you quick starts, long mileage and smooth, knockless power. Try a tankful of D-X today!

MID-CONTINENT PETROLEUM CORPORATION

The "SAUCER TEST" Gives You FLAMING PROOF

When you burn D-X Lubricating Gasoline and ordinary gasoline in open saucers, you can see the difference. Ordinary gasoline leaves a dry, hard carbon deposit. D-X leaves a smooth, oily protective film. Flaming Proof that D-X provides extra engine protection.
